Green Value Chain

European Bank for Reconstruction and Development

GVC Support to Egyptian Businesses in the Textile Industries Sector

WHAT IS GVC?

The Green Value Chain (GVC) financing facility provides financing and technical assistance for private sector SMEs to support their competitiveness and growth.

The facility supports capex investments in general and gives special emphasis to green technologies.
The EBRD's GVC credit line is available through QNB Alahli.

The Facility offers free technical assistance and 10% investment incentives (grant).

WHO IS ELIGIBLE FOR GVC FINANCING?

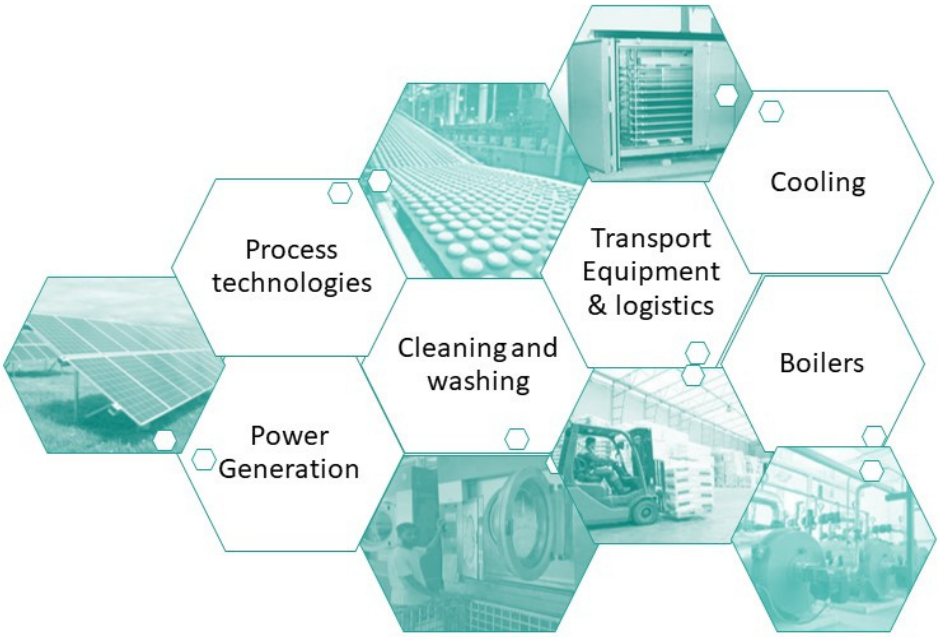
Egyptian privately-owned SMEs operating in the textile industries sector, including but not limited to manufacturing/operations of:

- Primary textile: Fibers& Monofilaments, Yarn, spinning and Sewing Threads.
- Woven & Knitted Fabrics.
- Ready-made garment and home and technical textile, such as: medical and health care use.
- Weaving, dyeing, printing and finishing.

FINANCING TERMS

Terms and approvals are subject to the technical eligibility criteria of the GVC and general rules and conditions of QNB ALAHLI.

Download the GVC application from our website and submit it with your loan application to QNB AlAhli.



HOW CAN YOUR BUSINESS BENEFIT FROM GVC?

GVC offers financing and technical assistance for Egyptian SMEs operating in the textile industries sector and looking to invest in high performance technologies in order to increase their competitiveness and profitability and/or improve their export outlook.

Financing may be used for capex investments in high performance technologies for investments up to EUR 1,000,000.

Applicants can benefit from 10% investment incentive (grant) and free technical assistance for eligible investments approved for financing by QNB AlAhli.

Our team of technical experts can provide free technical assistance to your business throughout different stages of your investment lifecycle:

1. Identification of investment opportunities.
2. Preparation of bankable projects.
3. Support in loan application and technology selection.

Some technologies are eligible for fast-track technical approval through the EBRD's Green Technology Selector (GTS) for investments up to EUR 300,000.

For more information on the GTS please visit: https://techselector.com/egypt-en/

The Egypt Green Value Chain Financing Facility is developed by the European Bank for Reconstruction and Development (EBRD) and it is financially supported by the European Union (EU), the Green Climate Fund (GCF), and the EBRD Shareholder Special Fund (SSF).
