GREEN ECONOMY FINANCING FACILITY IN MOLDOVA

Helps you

**MAKE YOUR IMPACT
ON THE FUTURE OF MOLDOVA**

Whether you are developing your business, producing or selling high-performing technologies, or renovating your house, through GEFF you can gain and contribute.

WHAT YOU SHOULD KNOW ABOUT GEFF

- Developed and financed by the EBRD, GEFF benefits the economy, environment, businesses and households.
- Worldwide, **GEFF operates in 27 countries**, supported by more than €4.6 billion of EBRD finance. More than 190,000 investments have led to a reduction of over 8.6 million tonnes of CO₂ emissions per year.
- GEFF provides a credit line of up to **€20 million** through local banks in Moldova and **free advice** on the most suitable technology for your case.
- GEFF provides a team of financial and engineering experts from RINA and the Frankfurt School of Finance and Management: the Facility Consultant (FC). The FC is made available at no further cost to the sub-borrowers thanks to the co-financing from the Green Climate Fund and Ministry of Finance and Treasury of Turkey.
- Loans of up to **€300,000** can be accessed for off-the-shelf high-performing technologies from the Green Technology Selector. For complex projects, subject to eligibility confirmation by GEFF experts, loans of up to **€500,000** are eligible for investments in the residential sector and up to **€5 million** for larger commercial projects.
- GEFF investments favour gender mainstreaming, which essentially values businesses led by women.

BENEFITS OF INVESTING IN HIGH-PERFORMING, ENERGY-EFFICIENT TECHNOLOGIES

BUSINESSES

- ✓ Enhanced company image
- ✓ Greater productivity and reliability of equipment
- ✓ Improved product quality
- ✓ Increased profitability
- ✓ Reduced energy, water and resource consumption, and thus lower costs

RESIDENTIAL /HOUSEHOLDS

- ✓ Higher property value
- ✓ Longer building lifespans and improved well-being of residents
- ✓ Better building performance

VENDORS

- ✓ Larger sales/production of energy-efficient and renewable energy technologies, hence higher turnover

ENVIRONMENT

- ✓ Conservation of precious natural resources
- ✓ Healthier surroundings
- ✓ Reduction in pollution

HOW IT WORKS

1. Do you want to get financing for a specific technology?

Select pre-approved technologies from the EBRD's Green Technology Selector (<https://techselector.com/moldova-en/>) to be financed by GEFf without any further technical approval. Eligible technologies include:

- ✔ Windows & doors
- ✔ Insulation
- ✔ Boilers & coolers
- ✔ Domestic appliances
- ✔ Cleaning and washing
- ✔ Lighting
- ✔ Motors, pumps, heat pumps
- ✔ Power & cogeneration
- ✔ Process technologies
- ✔ Transport
- ✔ Irrigation
- ✔ Land preparation and seeding
- ✔ Water reuse and recovery

Once you find your technology, you can approach a partner financial institution for a loan. The list of participating financial institutions is available at <https://ebrdgeff.com/moldova/financing/>.

2. Do you want to get financing for a green project?

Ask for free technical advice from the FC through the partner financial institution you selected. Some green investments can benefit from specific solutions that are not obvious or available under the simple “pre-approved” approach. In these cases, the FC provides advice at various stages of project implementation to analyse the eligibility of the investment proposal and to ensure that the most appropriate green technologies and services are financed using GEFf.

WHO IS ELIGIBLE?

- Individuals owning or residing in a building or apartment in which they intend to implement an eligible investment.
- Private companies, enterprises, firms, sole proprietors or other legal entities who wish to invest in eligible technologies.
- Vendors of equipment or materials listed on the Green Technology Selector who are interested in participating in the Facility's vendor financing programme.
- "Green" technology manufacturers, as listed on the Green Technology Selector, who are planning to sustain or expand the "green" part of their business.

STEPS FOR USING THE TECHNOLOGY SELECTOR

1

GENERATE YOUR INVESTMENT IDEA

2

SELECT RELATED ELIGIBLE TECHNOLOGY FROM THE TECHNOLOGY SELECTOR

3

RECEIVE GEFF FINANCING FROM THE PARTNER FINANCIAL INSTITUTION

4

GET THE TECHNOLOGY FROM THE VENDOR OR PRODUCER

5

ENJOY THE ENERGY SAVINGS AND FINANCIAL GAINS IN THE LONG TERM
