GEFF in Moldova loans for
investment in commercial buildings

ABOUT THE **GEFF IN MOLDOVA**

The Green Economy Financing Facility (GEFF) in Moldova is a new credit line developed by the European Bank for Reconstruction and Development (EBRD) to promote green investment in the agribusiness, **commercial**, industrial and residential sectors. The GEFF provides a credit line of up to €20 million through local banks in Moldova, along with free technical assistance on the most suitable green technology for your business, thanks to co-financing from the Green Climate Fund and the Ministry of Finance and Treasury of Turkey. Our team of experts supports the financing of green projects and initiatives that help you to reduce energy consumption, identify alternative energy sources and increase the profitability of your business.

WHO CAN BENEFIT?

Are you a **small or medium-sized enterprise (SME)** or **large company** in the commercial sector? Are you looking for ways to reduce your energy bill and improve the comfort of your office for your employees? Do you want to make your office and business more sustainable and less harmful to the environment? The GEFF in Moldova can help you to achieve your goals (see the EBRD Environmental and Social Exclusion and Referral Lists for exclusions at <https://ebrdgeff.com/moldova/downloads/>).

WHY INVEST IN GREEN TECHNOLOGIES FOR YOUR COMMERCIAL PROPERTY?

Adopting energy conservation technologies and making larger improvements to commercial buildings can generate substantial energy savings of up to 75%. Moreover, they can result in:

- lower energy bills
- improved employee wellbeing and productivity
- higher property values for building owners.

WHAT TYPES OF PROJECTS CAN BE FINANCED?

- building management control systems (BMCS)
- improved ventilation, air conditioning and heating systems
- better thermal insulation
- improved lighting systems
- indoor plumbing fixtures and other energy conservation measures
- metering systems
- solar photovoltaic and solar thermal water heaters.

MAXIMUM LOAN FINANCING AMOUNTS:

- up to **€300,000** for high-performing equipment and materials through the Green Technology Selector at <https://techselector.com/moldova-en/>
- up to **€ 5,000,000** for larger projects, on which our GEFF experts can advise

- a maximum aggregate sub-loan amount per beneficiary of no more than **€5 million** or equivalent.

HOW DOES IT WORK?

- Contact one of our partner banks (<https://ebrdgeff.com/moldova/financing/>) to receive information on the required documentation for your specific project.
- After the partner bank has completed its financial checks and your GEFf consultant has completed the technical eligibility check, sign the loan agreement and receive the funds.
- Purchase the technology and implement your project.

WHAT ELSE SHOULD YOU KNOW ABOUT THE GEFf?

- Developed and financed by the EBRD, the GEFf benefits the economy, environment, businesses and households.
- The GEFf operates in **27 countries worldwide**, supported by around **€5 billion** of EBRD finance. Some 200,000 investments have led to a reduction in CO₂ emissions of **9 million** tonnes per year.

Making the most appropriate and efficient investments can result in significant operating cost savings. Choose your bank from the list of GEFf in Moldova partner financial institutions at <https://ebrdgeff.com/moldova/financing/> and apply for a GEFf loan today.
