

Technology Selector is a web-based tool that helps to identify technologies eligible for GEFF financing. Technology Selector is a list of available and eligible technologies which meet minimum performance requirements, thus guarantee resource savings in comparison to the commonly used technologies. The Technology Selector is available on the GEFF Tajikistan website at www.ebrdgeff.com/tajikistan and lists set of technologies and products that have been identified as "best performing" under local market conditions. Technology Selector streamlines and simplifies the loan approval process for Participating Financial Institutions (PFIs) by ensuring automatic project eligibility without a need for further eligibility checks.

Benefits for PFIs

- Streamlined and fast procedure
- Easy eligibility check
- Easier to cooperate with vendors
- Supports sustainable image of the PFI

Benefits for Sub-borrowers

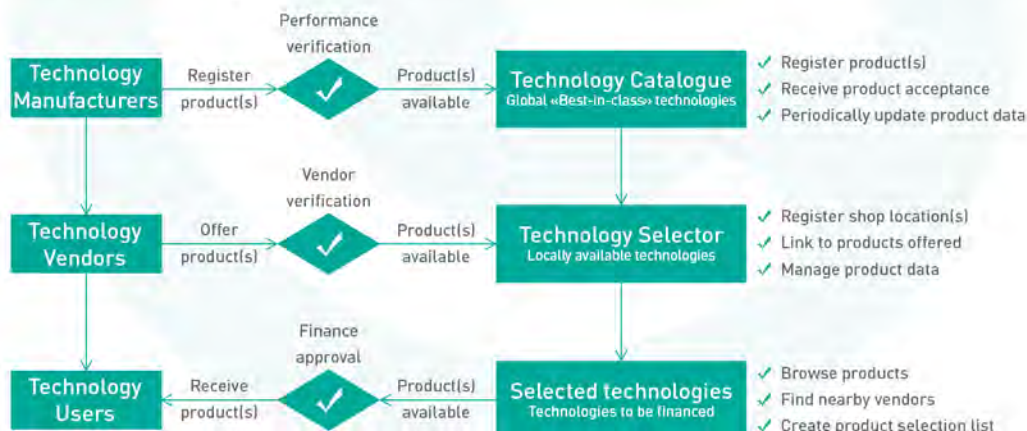

- Best available & eligible products
- Free engineering support
- Clear and simple procedure
- User-friendly

Benefits for Vendors

- Increased brand awareness
- Support in marketing
- Certification – highest standards
- Increased sales

Technology Selector – how does it work?

Technology Selector is an online platform with unlimited access to technology and vendor database, It provides a simple, user friendly system for processing investments into eligible technologies. Operating from One Central Quality Office with a unique brand for all GEFF involved countries, this mechanism creates global knowledge hub.

This project is funded by the European Union

In partnership with:

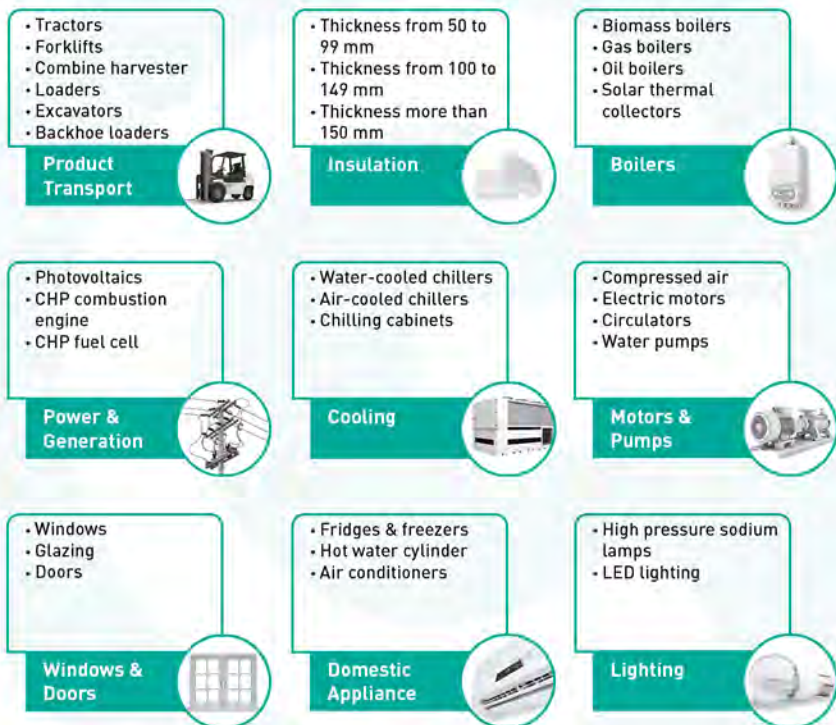

Partnership opportunities:

Technology Selector is an open list, and adding technically eligible items is free. If you are a supplier or vendor of high-performing equipment and materials you may add them to the Technology Selector. Suppliers and vendors of high-performing equipment and materials are also eligible for **GEFF** loans. By partnering with **GEFF** you will benefit from increased brand awareness and expanded sales!

General categorisation of eligible materials and equipment available for investment

Technology Selector is structured by the categories of products displayed below:

Please visit www.ebrdgeff.com/tajikistan and view specific products under relevant category and sub-category. Facility consultant continuously updates and populates the Technology Selector throughout the life of the Project.
