Where finance and green technologies meet

## Agri processing equipment

**GEFF Tajikistan** provides finance, investment grants and technical assistance to promote sustainable development and private sector investment. Farmers and businesses across agricultural value chains can adopt high-performing technologies to improve competitiveness through enhanced management of resources. Investment grants, funded by the European Union, are available upon successful project completion and verification.

This project is funded  
by the European Union

In partnership with:

GREEN  
CLIMATE  
FUND

This project is funded  
by the European Union

## Benefits for farmers:

Modern equipment improves overall reliability by eliminating unscheduled shutdowns that may occur with older equipment

Improving productivity through less down time and advanced performance

Reduction in manufacturing costs due to less energy consumption, enhanced automation and control systems

Enhanced competitiveness and business expansion along the agri-value chain

## Case study:

Cotton seed oil producer contributes to agricultural value chain enhancement by investing in an automated cotton oil production machine

With an investment size of **USD 15,200**, the entrepreneur, Mr. Sheriyon, is able to increase efficiency of production by **two times**, thereby increasing his income by **2.5 times**  
Payback: **5.5 years** | Annual energy savings: **57,500 KWH**

## Eligible borrowers:

Eligible applicants are private sector companies and farmers:

Micro, small and medium - sized enterprises\* along the agribusiness value - added chains

Investment grants in amount of **20%** of loan, are available upon successful completion and verification of the project

\*Micro, small and medium - sized enterprises will adhere to the EU definition as per OJ L 124, 20 May 2003, p. 36

## Technical criteria:

**Grant** payment will be made after the completion of the project and successful verification by an independent Verification Consultant.

### Eligible Agricultural processing equipment:

-minimum energy/water savings 20%  
(Individual assessment required)

### The following documents should be provided for the grant payment:

- contract
- invoice
- receipt
- and/or any other documentation as requested by the Verification Consultant.

The **GEFF** Project Consultant maintains the list of recommended producers, suppliers and vendors of eligible technologies and can support you with the identifying of eligible technologies, selecting and contacting reputable vendors.
