

**GTS** ENABLES CLIENTS TO INVEST IN GREEN TECHNOLOGIES!

**AN EXAMPLE:**

Local farmer invests in a modern greenhouse with a drip irrigation system to improve yields of vegetables.

With an investment size of USD 3,200, the farmer is able to increase its production yield of tomatoes by two times, thereby increasing his turnover.

Payback period: 3 years  
Annual water savings: 432 m<sup>3</sup>/annum.

Eligible greenhouses:  
-prefabricated frame  
-minimum area of 200 m<sup>2</sup>.

**THE GREEN TECHNOLOGY SELECTOR**

is a new world-class platform and another tool to promote green technologies in Tajikistan. The technologies registered in the platform are available on the global level, which gives a great opportunity to the private sector to present their own products and find technologies provided by suppliers from other countries. The catalogue of these technologies is expanding and replenished every day.

GLOBAL

- 15 LANGUAGES
- 38 COUNTRIES WHERE THE EBRD OPERATES
- >29 000 BEST-IN-CLASS GREEN TECHNOLOGIES

**The GTS**

helps to bring more innovation to the local community, enhances the green development of Tajikistan and makes growth more robust, resilient and sustainable. The GTS contains materials and technologies that increases energy efficiency, ensures the use of renewable energy sources and reduce water use and soil erosion.

TAJIKISTAN

- >1000 GREEN PRODUCTS
- 62 VENDORS
- 8 CATEGORIES

**WHERE FINANCE & GREEN TECHNOLOGIES MEET**

This project is funded by the European Union

In partnership with:

**GREEN TECHNOLOGY SELECTOR**

GTS is a global shopping-style platform that connects vendors of the best green technologies with forward-thinking businesses and homeowners.

The **Green Technology Selector** is recognized as a world-leading tool that supports **financial institutions** in emerging economies to de-risk and scale up their investments in green projects.

**Partner Financial Institutions** supported by the EBRD – banks, leasing companies, microfinance institutes – are now referring to GTS as the technical eligibility assessment tool to develop green financial products.

#### BENEFITS FOR PFIs

#### GTS

is now accessible through Mobile app «Tech Selector»

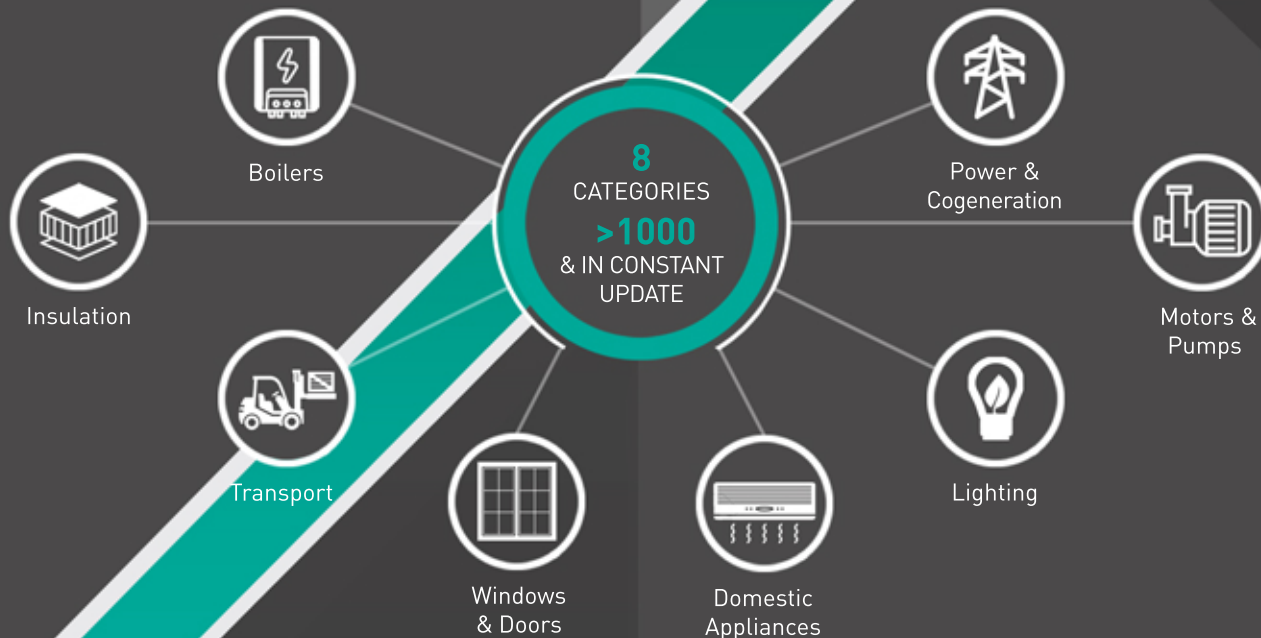

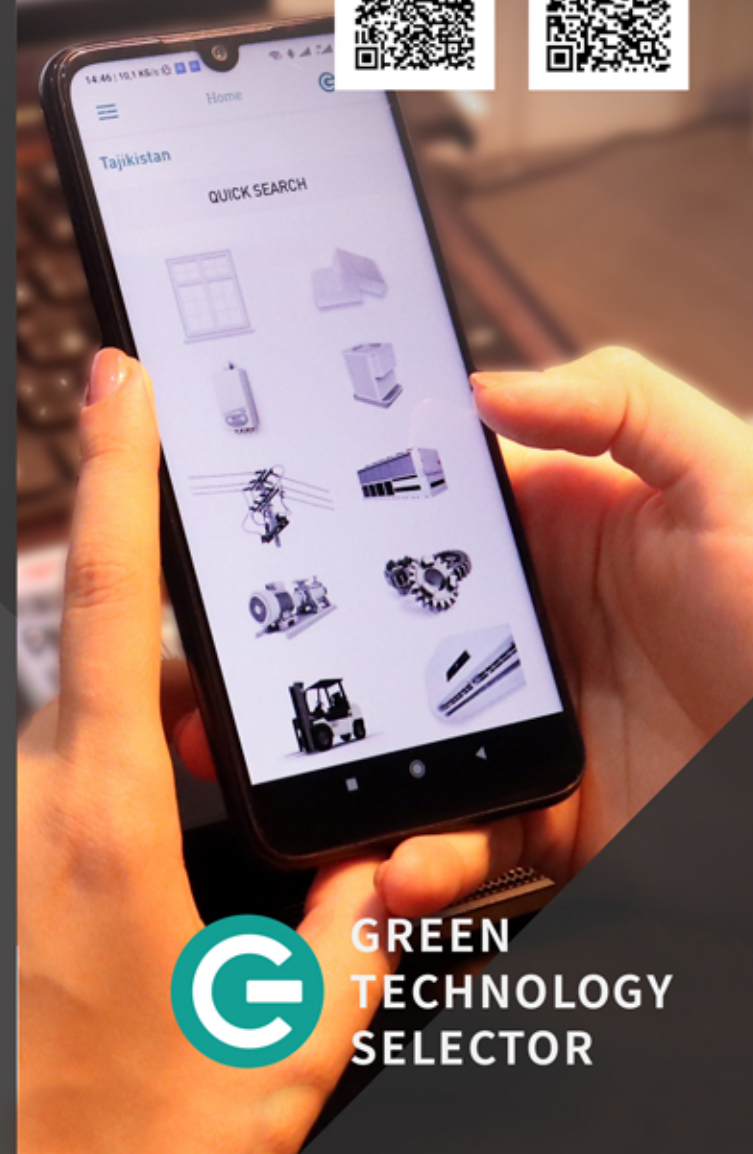

Technology and digitalisation continue transforming the way in which the financial sector is operating. Innovative applications of digital technology for financial services such as the Tech Selector are altering the interface between financial institutions and their clients while improving access to information about green technologies and climate finance.

Businesses and homeowners will be able to use their smartphones to find more than 29 000 green technologies that improve energy efficiency, provide renewable energy, and reduce water use and soil erosion.

Users will also be able to easily identify the technologies that benefit from EBRD support –from the EBRD's Green Economy Financing Facility (GEFF), the Green Trade Facilitation Programme (Green TFP) or the Finance and Technology Transfer Centre for Climate Change programme (FINTECC).
