THE GREEN TECHNOLOGY SELECTOR

is a new world-class platform and another tool that helps to identify technologies eligible for GEFF financing. Technology Selector is a list of available and eligible technologies which meet minimum performance requirements, thus guarantee resource savings in comparison to the commonly used technologies. The Technology Selector is available on the GEFF Tajikistan website at www.ebrdgeff.com/tajikistan and lists set of technologies and products that have been identified as "best performing" under local market conditions. Technology Selector streamlines and simplifies the loan approval process for Participating Financial Institutions (PFIs) by ensuring automatic project eligibility without a need for further eligibility checks.

BENEFITS FOR SUB-BORROWERS

BEST AVAILABLE & ELIGIBLE PRODUCTS

CLEAR AND SIMPLE PROCEDURE

FREE ENGINEERING SUPPORT

USER-FRIENDLY

The GTS

helps to bring more innovation to the local community, enhances the green development of Tajikistan and makes growth more robust, resilient and sustainable. The GTS contains materials and technologies that increases energy efficiency, ensures the use of renewable energy sources and reduce water use and soil erosion.
